Pastor Green's Daily Encouragement

We were in a North Tonawanda restaurant last night, one that the covid restrictions haven't closed yet. Recently we were told that the health department has been in there several times, always finding some minor covid violation to harass them about. While we were eating, four adult males were taken to an open table and seated. As soon as the server walked away, they decided to move to one of the tables that was "covid closed." They were made to move to their original table because of the social distancing restrictions, and they didn't like it. If you want to make a statement about these political actions, then go right ahead, on your own time, in your own home or business. Don't put another in jeopardy because you don't like your seat. Had the health department stopped for an inspection while they were in the quarantined seats, it would not be them who would be cited, it would be the restaurant owner, and the jobs of every employee hang in the balance. Please pray for people like this, those who care only about themselves. Pray that God would grant them common sense, because there is no longer anything common about common sense. Pray that people stop and think about their actions and how those actions impact others, especially in a negative way. Pray that God would put an end to this pandemic. As today is Sunday, the Lord's day, stop in to your church today and offer your Father in heaven your gratitude for the many things that He has blessed you with. Pray that our churches remain open, and remember that Thanksgiving Day is coming soon, be thankful. Our Sunday hymn of praise and thanksgiving is "Come, Ye Thankful People Come."
