Pastor Green

Hello boys and girls, do you know what time it is? If you guessed Howdy Doody time you'd be sixty years too late, but that was a good time. Life seemed simpler for people back then. I suppose that what the world often refers to as progress is anything but. Everything in life seems to change at break-neck speed, whether we're ready or not. There is one thing in life that does not change, and that is our God and Father, He is unchangeable. And not only Him but His Word is unchangeable as well. I've heard people say that we should change the Bible to match what is happening in the world today. That is the wrong take on things, we should actually be changing our lives to match what God's Word teaches. The world would be so much better if we obeyed God and not other people. If God were the priority in our lives we wouldn't have the trouble in the world that we do. I realize that it's too late to turn in our technology and return to the 1950's and 60's, but it is never too late to return to our Creator. If you haven't opened the Bible and read God's Word recently, today would be a great day to start. Place your faith and hope in the God Who created all things, and give Him your thanksgiving and praise today. Our song on this Terrific Tuesday is "Common Creed" by Wes King. Have yourselves an incredible day in the love of Christ.
