

August 17, 2021

Good morning! We don't know what this brand new day holds for us, but know that God holds us in His arms. This isn't just something that happens once in a while, this is 24/7, 365 days a year. We are never out of His sight, there is never a time that He deserts us and leaves us alone. Why does He do this, because of His love for us, His children, His creation. When God created the world, we made light, and He said that it was good. He created the sun, moon, stars in the sky, and He said that it was good. He created the mountains and oceans, then animals to inhabit the land and sea, and He said that it was good. Then on the sixth day He created mankind, and He stopped and said that it was very good. We are His crowning achievement, a title that we clearly do not deserve, but we go right back to what I first said, He does it because of His love for us. Love for His children is the reason that Jesus died on the Cross for us. It shows exactly how far God will go to prove how much He loves us. What are we doing to show our love for Him? Our song for this Terrific Tuesday is called "Love is the Reason" by Mac Powell, and truer words have never been sung. Show your Godly love today, share it with others, in Jesus' name.
