

August 25, 2021

Well that was a warm one, and it looks like today is going to be more of the same. It's been a very hot Summer, one for the record books. Now I'm wondering what we'll experience in Fall and Winter. I'll place it in God's hands, He alone knows what is on the horizon for all of us. The fires out west seem to be causing weather problems out there. Yet in God's country (WNY) we seem to be somewhat insulated from that. We received a bit of localized flooding earlier in the Summer, but we quickly escaped that too. I will gladly take the snow of Winter in exchange for hurricanes, tornadoes, drought, floods, and forest fires. We are blessed in this area, please don't forget to thank your Creator for that. We have an abundance of fresh water, and a climate that isn't conducive to fires. Praise God for these things, they are gifts from Him, never forget where our blessings come from. We'll get through today, and get a brief respite from the extreme heat. Thank you Jesus. Our song on this Terrific Thursday is by 4Him and it is called Let the Healing Begin." Let it begin for all of us in His time. Amen.
