

Thursday, October 14, 2021

Hello everyone! It is Thursday and we are already getting to the half way point of October. It seems that yesterday was August, and here we are at the 14th of October. A little over two weeks from Halloween, five or six weeks from Thanksgiving Day, and Christmas, well, I don't even want to think about that, just know that it is coming sooner than you think. Time flies right by and it accelerates as we get older. The time between now and Christmas will slowly drag for children, but it will be here in a heartbeat for us. This is a perfect reason to be thankful for every day that we have been given, because we never know how many days we have left. This virus has shown the world just how fragile life is, as we've lost more family and friends than we care to think about. Let us continue to place our thankfulness in the Power of the Cross. Let us remain faithful to the Savior Who gave us the forgiveness of sins that provides us eternal life. When your day becomes more than you can handle today, don't, don't handle it, give it to Jesus. Our song for this Thursday morning is called "Stand" and it is performed by the "Newsboys." Have a slowed down Thursday today.
